

Refresh Mouthrinse

16 Fl. Oz. Bottle

THE LATEST INNOVATION IN ORAL HYGIENE

In today's market, products such as breath mints, chewing gum and mouthwashes are used to conceal mouth odors with sugar and alcohol. **Refresh Mouthrinse** freshens your breath by neutralizing the volatile sulphur compounds responsible for mouth odor. The incredible unique properties of **Refresh Mouthrinse** are due to its active ingredient, Stabilized Chlorine Dioxide. **Refresh** begins to release pure chlorine dioxide when the finished product is applied to its intended environment. When the molecules come in contact with an acid body, it oxidizes and helps to destroy the bad elements that cause bad breath.

WHAT IS STABILIZED CHLORINE DIOXIDE?

An .05% aqueous stabilized Chlorine Dioxide solution with a pH of 7.5 has been found by independent laboratory studies to be a strong oxidizing agent. The solution has been getting national attention from the dental profession due to its therapeutic properties and effectiveness in dental hygiene.

HOW IS REFRESH MOUTHRINSE BETTER?

Refresh does not contain alcohol or sugar-based flavoring to mask mouth odor. It does not contain any coloring, so it will not stain your teeth. **Refresh** works by oxidation that neutralizes those elements that are responsible for poor oral hygiene.

HOW SAFE IS REFRESH MOUTHRINSE?

There is no doubt that **Refresh** when used properly is as safe as any existing product today. Our Stabilized Chlorine Dioxide has a use history of over 15 years without a single incident of a health related complaint. Additionally, the ingredient, Stabilized Chlorine Dioxide, has been used in municipal water systems for over 50 years without incident. Anyone who wants to maintain his or her health should include **Refresh Mouthrinse** as part of his or her health regimen.

Use after every meal. For maximum results, thoroughly cleanse teeth, gums and tongue with floss and toothbrush. Then vigorously swish one to two capfuls of **Refresh** for a minimum of 60 seconds to ensure fresh breath. Natural peppermint flavor. Safe for children.
